

ENVIROair

Ductless Split Systems with **INverter** TECHNOLOGY

Ideal Comfort Solutions for Residential and Light Commercial Applications

EnviroAir by EMI provides economical solutions to conventional ducted systems for spot cooling applications.

Features & Benefits...

- ◆ Inverter driven compressor adjusts speed to reduce cycling and better maintain comfort
- ◆ Single and multi-zone application flexibility with 35 different 2, 3, & 4 zone combinations
- ◆ 15 to 16 SEER high efficiency models with capacities from 9,000 Btuh to 24,000 Btuh
- ◆ Fully programmable IR remote control
- ◆ Smooth air flow design and isolated compressor provide exceptionally quiet operation
- ◆ Simple maintenance with easily removable washable filters
- ◆ Easy installation – requires no ductwork and minimal on-site adjustment

ENVIROair

Ductless Split Systems Standard Features

Built-in Low Ambient Kit

All EnviroAir Systems come equipped with low ambient kits factory installed to allow the system to operate effectively in low temperature climates. This feature is important when providing cooling to areas such as mechanical rooms and data/server rooms.

Follow Me Technology

A temperature sensor is built into the IR remote control. When you stay close to the remote control, the unit will automatically change the operation mode to supply comfortable temperature just like the air conditioner is following you.

Turbo Operation

Maximizes the output of cooling or heating capacity to achieve desired temperature in the shortest time.

Auto-Restart

If power is cut and then restored, the unit will restart with the previous function settings.

Auto-Level Swing Louvers

Distributes conditioned air through horizontal auto-swing louvers for greater air circulation.

Timer

The system can be set to start and stop at any point in a 24-hour period.

Peace of Mind Comprehensive Warranty

EnviroAir systems feature a limited 1-year parts and 5-year compressor warranty.

USA Technical Support

U.S.A. based contractor assistance is readily available.

Choice of Three EnviroAir Zone Systems:

FSR Series

Single Zone Systems

- ◆ 15 SEER Inverter Technology
- ◆ 9K & 12K Btuh Systems
- ◆ Cooling Only Available
- ◆ 115V Applications

FSR Air Handler

SZI Series

Single Zone Systems

- ◆ 16 SEER Inverter Technology
- ◆ Energy Star eligible models
- ◆ 9K / 12K / 18K / 24K Btuh Systems
- ◆ Heat Pump
- ◆ 208V-230V Applications

SZI Air Handler

MZI Series

Multi-Zone Systems

- ◆ 16 SEER Inverter Technology
- ◆ Three choices of Indoor Air Handlers, 9K / 12K / 18K Btuh
- ◆ Flexibility of three Condenser options, 18K / 27K / 36K Btuh
- ◆ Heat Pump
- ◆ 208V-230V Applications
- ◆ 2, 3, 4 Zone Systems*

MZI Air Handler

*MZI Series Condensers: 35 – 2, 3, and 4 Zone Combinations

CONDENSER MODEL	AIR HANDLER CAPACITIES			
	1 ZONE	2 ZONES	3 ZONES	4 ZONES
